

Legacy Roofing is Included in Inc. 5000 List

Legacy recognized as one of the fastest growing companies in America

REDMOND, WASH. (August 24, 2007) – Legacy Roofing, a Redmond, Wash.-based roofing installation company, has been included on the *Inc.* 5,000 list of the fastest growing privately held companies in the nation.

The *Inc.* 5,000 list showcases private companies across the United States that represent the future of business as a whole and the best of our nation's entrepreneurial spirit. The magazine expanded its popular list of the 500 fastest growing companies by ten-fold this past year.

"This is a wonderful honor and a testament to our company's Gold Standard for quality and service," said Legacy owner Cliff Hurn. "I want to thank every one of our employees for their companywide commitment to operate by the highest standards of service from the first sales call through final inspection."

Companies on the 2007 *Inc.* 5,000 list are ranked according to their percentage of revenue growth from 2003 through 2006. Legacy Roofing experienced sales that nearly quadrupled during that period, with an overall increase in revenue of 168 percent and ranking it number 2,137 on the *Inc.* 5,000 list. The company closed 2006 with \$24 million in sales and is on track to continue its impressive growth in 2007.

To qualify for inclusion on the list, companies must have been founded and generated revenue by the first week of 2003. Companies also had to grow its revenue by at least \$200,000 to a minimum of \$2 million during the four-year span.

This honor is the latest in a string of recent recognitions and awards for Legacy. The Bellevue Chamber of Commerce selected the company as one of three finalists for the 2007 Eastside Business of the Year award. The *Puget Sound Business Journal* recognized Legacy as one of the state's 100 fastest growing private companies in 2005 and 2006. *Replacement Contractor*, a national trade magazine, featured the company's pioneering marketing and business success in a February 2006 feature profile. Legacy also earned a 2005 Master Builders Remodeling Excellence (REX) Award for restoration work on a historic, 100-year-old home in Bellevue, Wash.
