

Legacy Roofing Wins ‘Emerging Business Award’

Redmond roofing company’s success is praised by local Chamber of Commerce

REDMOND, WASH. – (June 2006) – Redmond, Wash.-based Legacy Roofing, a 17-year old quality roofing installation company serving Seattle and Eastside homeowners, was awarded a coveted ‘2006 Emerging Business Award’ by the Bellevue Chamber of Commerce. During the May 24 awards banquet, Legacy took highest honors as the Eastside’s top emerging company based on its rapid revenue growth over the past five years as well as its innovative business concepts within the industry.

The Eastside Business Awards are held annually and present awards over six categories. A tribute to the entrepreneurial spirit that contributes economically and fundamentally to the local community, a panel comprised of regional business leaders selects the top performing companies from each category

With growth a leading factor in determining award winners, Legacy was a natural fit. After a successful re-branding campaign in 2000, spearheaded by owner Cliff Hurn, sales skyrocketed from \$6.3 million in 2001 to more than \$18 million in 2005. Business has tripled in just four years, and just recently, Legacy moved into a new Redmond office and warehouse built specifically for the company.

“Legacy has been headquartered in Redmond for almost 20 years, and we very much value the Eastside business community and their support,” said Hurn. “It has been amazing to watch the company grow over the years, and we look forward to even further expanding on that as we bring the most up-to-date roofing qualifications to the market.”

Legacy credits its success to the company’s dedication to its Gold Standard™ in quality and service. Legacy employees operate by the standard from the first sales call through final inspection, and undergo continuous training on the most updated roofing techniques and products.

The latest award joins other accolades Legacy recently received including recognition by the Puget Sound Business Journal as one of Washington’s fastest growing companies in 2005 and additionally awarded the prestigious Remodeling Excellence Award presented by the Master Builders Association in August of 2005.
